More About the San Francisco Tramps.

At the walking match this afternoon considerable excitement was occasioned by Chenowith falling senseless on the track and it was rumored that he had been poisoned to prevent him making the 450 miles for which he is heavily backed The fact is said to be however that his trouble was caused by excessive use of a lotion on the feet and this being broken a poisonous element in the lotion got into his blood producing effects similar to strychnine An antidote was administered relieving him, but the occurrence has spoiled his chances

MARK LANE REPORT.

The Condition of Crops in England Worse than Heretofore Reported—France also Worse off than Expected—The Liverpool Market Healthy and Firm.

[SPECIAL DISPATCH TO THE OREGONIAN]

LONDON, Oct 7—The *Mark Lane Express* says that bad weather has continued with but brief intervals of sunshine In the midland counties the rainfall has been excessive and harvesting carried on in a very desultory manner Much of the corn in other parts of the kingdom remains unstacked The greater part of the wheat and barley recently cut is in such a damp state that sprouting or heating in the stack will inevitably ensue The cutting and carrying proceed very slow in the north and the want of dry weather is much felt

In Scotland farmers have also suffered further loss owing to the prevalence of gales which have shaken out much standing barley but oat fields withstood the action of the wind to a great extent as the grain is yet unripe Root crops and pastures have improved a little as a rule.

Ireland has been more favored and with the exception of a stoppage for a few days owing to heavy rains harvest operations have been carried on briskly In South England many fields are now cleared but the result upon threshing are most disappointing as to condition quality and yield Judging from a few samples hitherto shown wheat is light damp and sprouted Barley is in many instances discolored and unfit for malting The deliveries at 150 principal towns are 11 185 quarters of wheat against [illegible] quarters for the corresponding week of last year The average price is nearly a shilling lower

Trade [illegible] very firmly at the beginning of the week both in the country and Mark Lane and there was an advance of two to three shillings on wheat and a shilling on sack and barrel flour A large business was done in London on Monday but on Wednesday the edge seemed to be taken off the trade as having satisfied their more pressing needs millers seemed disposed to stand aloof and watch the course of events At the same time a large degree of steadiness has been preserved the imports in London having been quite moderate but the excitement of ten days since has been altogether wanting In occasional instances where sales were pressed sellers accepted [illegible], [illegible] money but as a rule the late advance has been [illegible] nor is there appear any probability of a decline as there is some reason for believing that the requirements of France have been under rather than overestimated and it [illegible] whether Russia and Germany can be [illegible] on to [illegible] 600 quarters which have been [illegible] the quantity we might expect from the estimates

After an unusual phase of excitement accompanied by [illegible] business has come to a pause [illegible] inherent weakness or from the effect of any of these causes [illegible] [illegible] judicious cessation of operations on the part of buyers to give time to thoroughly [illegible] [illegible] with a view to further [illegible]

The samples of New England barley hitherto shown have been [illegible] that the [illegible] [illegible] for about [illegible] quarter [illegible] [illegible]

The foregoing remarks apply to the [illegible] days since which [illegible] strength has been apparent and on Monday prices advanced [illegible] fully a shilling per quarter making a total improvement of two to three shillings on the week's sales

The sales of English wheat last week were [illegible] quarters at [illegible] against [illegible] quarters at [illegible] for the corresponding week of the previous year

Imports into the United Kingdom for the week ending Sept [illegible] Wheat 1[illegible] [illegible] [illegible] 15 cents

The *Statesman* of Ins report that the following prices are paid in that city to producers Oats, 30 to 35c per bushel butter, 25 to 30c a pound eggs, 22½ to 25c a dozen potatoes, 37½c per bushel bacon sides 9 to 10c, shoulders, 6 to 8, hams 10 to 12c lard, 8 to 10c per pound.

FROM NEWCASTLE

[illegible]

SEATTLE Oct [illegible]

At the wave of attention [illegible] advent of your correspondent at Newcastle last week it may be well [illegible] briefly that he was the [illegible] [illegible] before an attempt at a [illegible] of the methods of working there would simply be a repetition of past efforts in that direction I found the busy little town which by the way is the largest coal mining town on the Pacific coast all astir with its wonted activity The usual number of men are at work and the mines are running night and day Over six hundred tons of coal daily are now [illegible] taken out As heretofore the best of feeling appears to exist between the company and the men employed A few who were principally instrumental in instigating the recent strike were not put to work upon the resumption of operations and have for the most part left while their places have been filled by new comers The entire force employed as stated in a former letter [illegible] and about the mines in the sawmill and elsewhere are white men there not being a Chinaman in camp not even a [illegible] washerman to make an exception

A GENERAL AND RIGIDLY ENFORCED RULE

The miners and employes of the company generally are with but few exceptions as intelligent and industrious a class of men as one will find anywhere The miners for the most part are a liberal whole-souled class such as miners generally are while many of them are men of considerable intelligence well read and thoroughly informed on all current issues of the day And right here I may mention that one of their number, Mr James Begley a regular employe in the mines is at present a member of the honorable board of county commissioners of this county The appreciation of THE OREGONIAN among all classes here as elsewhere on the Sound is shown by the fact that that paper including its daily and weekly editions now leads off all other papers here in point of circulation As a local paper, for Puget Sound news it is generally preferred to all others while as a general newspaper it is universally recognized as without a rival in the northwest Improvement here as at several other points on the Sound, at the present time is

THE ORDER OF THE DAY

The company's new store now about ready for occupancy is a fine wooden structure 110 x32 in size, containing one story fifteen feet high with a loft or store room over head The work has been done by contract by Mr Coppin of this city and right well has he executed it Aside from this a large plot of ground has been cleared off and graded in the vicinity of the store on which the construction of a fine new residence for the superintendent, Mr Williams, will be immediately commenced A large water tank of sufficient capacity to meet the requirements of the whole settlement has also been constructed in the upper part of town and supplied with water from Coal creek, a mile distant The gang way, or main tunnel to the mine, has also been widened and the grade somewhat altered and improved so as to admit of the running of the new underground locomotive in the transportation of coal from the tunnels and which will be commenced in about three weeks To this end it has been found necessary to put in a new air shaft and construct a new under ground furnace for the purpose of facilitating the ventilation of the mine

PERSONAL

Mr James Williams, an Englishman by birth an experienced miner both as regards theory and practice, and eminently qualified in every respect to fill the position to which he has been appointed is the present general superintendent at the mines

Hon J M L Atkinson, member of our last territorial legislature and a shrewd careful business man, always at his post prompt and attentive to every detail of the extensive business in his charge, fills the position of storekeeper and general superintendent of that department of the company's affairs

Prof C W Young, A M formerly head bookkeeper in the extensive mercantile house of Schwabacher Bros & Co, of this city occupies the position of bookkeeper at the mines

Dr G Bryant a man of fine professional attainments, a graduate of one of the leading medical colleges of the United States and a most courteous and agreeable gentleman, is the regularly employed physician of the company residing at Newcastle

RENTON

At Renton everything is quiet Some little stir was created recently by the circulation of a report that the mines were soon to be started up, but the prospect has again been obscured by a cloud of disappointment Mr Snow the local merchant and postmaster is doing a good business with the farmers and settlers of the surrounding county, and the trade which his enterprise has here established comprises the entire business of the place The construction of another six mile section of the S & W W R R up the Cedar River valley above Renton to the McCallister coal mine is now generally talked of, but as yet it is only talk

Arrears of Pensions

WASHINGTON Oct [illegible]—Arrears of pension claims to the amount of $2 0[illegible] have been settled up to October 1st The average amount of arrears in each case settled was $[illegible] The whole number of cases settled in September was 13 [illegible] It is estimated there are still about [illegible] 000 or [illegible]000 pensioners entitled to arrears whose cases have not been settled The settlements here cannot be made as rapidly as heretofore because of the great number of cases in which there is no title to arrears which must be examined in search for those to which there is a title It is stated for the information of all pensioners who believe themselves entitled to arrears and who do not receive notice of the settlement of their claims either by allowance or rejection by Nov 1st that they can hasten settlement by writing a letter to the office giving again the number of their pension certificate and their present post office address It is almost certain that the [illegible] appropriated will be [illegible] to cover the arrears which were due upon pensions allowed previous to January [illegible]

[illegible] Semple Esq of Columbia county has on exhibition his thoroughbred bull Von Moltke, sired by Howard and Haldee a 2 year old heifer both [illegible] fine animals

R. C. & C Geer exhibit Chenery, a very large Holstein bull four years old

G W Dimmick has thirteen head of short horns all of which are most excellent animals and to but few men more than Mr Dimmick does Oregon owe more for the propagation of blooded cattle His bull on exhibition Bellchina 2d calf over six months Rose of Sharon 2, heifer 2 years herd of 5 [illegible] cow of three years or over all with blue ribbons while others have second prize

John West of Marion county has blue ribbons for three graded cows and a bull two head of beef cattle and a Jersey bull and heifer He also has a herd of five graded on exhibition

[illegible] W Davenport of Silverton exhibits his celebrated Devon bull Vic 6 years old This animal is much admired

James Richards shows some of the best cattle on the grounds his heifer 5 months, named Rose of Oregon is perhaps the finest specimen here The cow Beauty, same owner and thoroughbred bull Ferdinand and a calf Last Rose of Summer, are all superior animals and have taken first premiums in their respective classes

The exhibit of swine owned by two individuals is very good though less extensive than usual It comprises all the pure blooded and grades raised in this state For such a fine exhibit the fair is as far as we can find, indebted to Mr John West of Marion county who carries away 13 blue ribbons and a red one and Messrs R. C. & C Geer who take one first and second

THE RACES

To-day consisted of running race for two year olds the entries for which have already been given In drawing for positions Jim Merritt got the pole Lute Lindsey second Steeltrap third and Vina on the outside The contest was a single dash of one mile and excited very great interest as the four horses were all good and though the track was such as barred the probabilities of extra good time the pools sold quite freely Merritt selling favorite at about $10 to $7 50 on Vina and Steeltrap and $3 on Lute Lindsey On the second score the four got off well together On the first quarter Merritt and Vina held up, the other two running well together At the half the four were all abreast Merritt and Vina going with a quick-ening pace Now it was apparent that Merritt was at his ease and Vina a gallant little sorrel with some coaxing doing a work which would make her a good second The half was reached in 1 0[illegible] but to the wire thence a better gait prevailed and the mile was made in 1 59 Jim Merritt winning and Vina second by a length and a half Steeltrap a bad third

The well known Oregon raised horses Mayflower Sank Owens and Olo were immediately called up for the 3 in 5 race, mile heats Olo took the pole in drawing for positions Mayflower second and Sank Owens outside They got off well together in the first score and for the entire heat to the third quarter it would have been difficult to tell the winner The brush on the third quarter and home stretch was between Olo and Mayfl wer the former winning by a full length Sank a pretty good third Time 2 57

The second heat was started with rather more difficulty but was quite even at last On the first quarter, Olo and Mayflower taking the lead and crowding Sank Owens back with a fair field before them they made a good race considering the condition of the track The contest between them on the home stretch was close and warm Mayflower's rider using the whip quite freely but beyond the reins and the spur of his own ambition Olo had nothing to urge him to the effort which won the heat in 2 [illegible] and the race

This ends the day's sport which was enjoyed by a larger crowd of spectators than any other trial so far during the Fair After the first heat the boys who had bought pools on Mayflower hedged in haste and by that means some of them got even Olo the winner owned by Joseph Taylor of Portland is 5 years old a bright sorrel compact but little and active as a panther His sire was Jack Minor, out of a Coberg mare He looks every inch a race horse

The races to morrow will be those on the programme for those to-day running for 3 years old [illegible] $400 to first $100 to second The entries are Frank Dollar [illegible] by Norfolk owner J N Tabb Mollie Miller b m by Langford owner Miller & Bybee Edith H b m by Be[illegible]wood, owner Ayers & Tennant There will also be a trotting race for three year olds mile heats 3 in 5 in which there have been 14 entries but there will probably not be that number to start

The big races of the fair will with good track take place on Thursday running and trotting two miles and repeat each These races are not yet filled

D W PRENTICE & CO'S DISPLAY

The display of Messrs D W Prentice & Co No 108 First street Portland occupies the entire northwest corner of the new pavilion and the aisles around it are crowded with interested spectators all day long Directly in the corner is an Estey pipe organ nearly ten feet high with pedal bass very handsomely finished, and the finest instrument of the kind ever shown in the state They also exhibit several parlor and drawing room Standard and Estey organs which are too well known all over this coast to need particular mention in these columns In pianos the show [illegible] of the celebrated Haines Bros New York make which rank among the most complete and perfect instruments manufactured and are sold at a price which cannot fail to suit the public generally They also show an imported Mansfeldt and Nottl upright piano made with full iron frame and warranted to stand in any climate and a large number of drums horns banjos violins tambourines flutes concertinas etc Messrs Prentice & Co may well feel proud of their exhibit and they carry home as new laurels for their instruments the blue ribbon on square piano upright piano and Estey organ

At an indication of the rapid settlement of the country east of the Cascade range we may mention that numerous orders are being given for fruit and forest trees to be planted this fall These orders come from a very wide range of country showing that the settlement of that region is both increasing and spreading. The nursery of Mr Philip Ritz of Walla Walla is the principal source of supply.

THE WASHINGTON LEGISLATURE

[SPECIAL TO THE OREGONIAN]

OLYMPIA W. T [illegible]

Olympia is having its [illegible] awakening The ordinary dull days with which it is favored differ hardly more than in the even tempered placidity of its inhabitants who are usually well content to let the hurry and vexations of more bustling places pass them by but upon the assembling of the legislature with its consequent wire pulling log rolling and rush for office their dormant passions are also aroused and unwonted activity takes the place of the usual Olympian life

The partial failure of the territorial fair [illegible] [illegible] [illegible] did not have time to dampen the ardor of the people before the call to order of both houses awakened new interest Long before the hour for convening the capitol building was filled with interested and curious people The [illegible] called to order by Hon N H Owings secretary of the territory On calling the roll all the members were found to be present

The organization of the two houses which was promptly effected, has been telegraphed heretofore Both houses adjourned till to morrow

There is a very general feeling of satisfaction over the organization of both houses each section feeling that it has been fairly dealt by While the western section has both the speaker and president nearly all the important offices have been given to the eastern portion of the territory none of their candidates returning home disappointed To morrow the governor will in all probability send in his message and the real business of the session will commence While the session has opened most auspiciously and harmoniously, a lively time is anticipated over the apportionment, each section striving to obtain as much as possible

Big Money from a Leadville Mine.

The Leadville (Col) *Chronicle* speaks of a mine in that neighborhood which has declared a dividend of 50 cents a share to be paid on the 8th of October, the aggregate sum being $100 000 which makes $850 000 taken from the mine in a period of nine months The correspondents writing from that region to the eastern press tell remarkable stories of the expectations indulged by the Leadville claim owners and if the country can boast many such ledges as that to which allusion is here made it certainly has a most promising outlook before it

BUCKINGHAM & HECHT
THE COUNTER & SEAM PROTECTOR
TRADE MARK
HERCULES
PATENTED MAY 21, 1878

In this boot the counter is covered by a piece of leather extending from under the sole to some three inches above the upper edge of the counter or in other words, the counter is between the leather of the boot and the protector and is not exposed either on the outside or the inside of the boot consequently the heel does not touch it at all thus one of the greatest objections to boots—the trouble of getting the heel over the counter or stiffening—is removed. This is an object of great importance to the consumer both in economy and comfort On this point we need only appeal to the thousands who wear boots

HERCULES.

HERCULES

Another advantage gained by this arrangement is that the same piece of leather that covers and protects the counter also extends beyond the side seams covering those seams thereby greatly increasing their strength Again in the old style boot the leg is liable to sag or fall around the ankle but in The Hercules Boot this is rendered less liable by the counter protector as it doubles the leather at the point where the sagging usually takes place

HERCULES

All boots—men's boys and youths'—may be manufactured with this improvement though it is most desirable in heavy boots where great strength is required

HERCULES

We have secured the Sole Right to Manufacture this Boot for the Pacific Coast.

WEDNESDAY MORNING, OCT. 8, 1879.

FOREIGN VESSELS.

Mr. Parish of the Merchant's Exchange in this city, an institution, by the way of great utility and deserving the support of our business classes, has kindly compiled for us a statement of all vessels, foreign and domestic, on the way, Sept. 17th, to the ports of New York, Philadelphia and Baltimore. Our object in presenting the statement is to show the proportion of foreign to domestic vessels seeking our principal eastern ports. The total number of vessels of all classes on the way to the three ports named at the date above given, was 904. Of these only [illegible] were vessels of the United States.

This statement presents more clearly than anything we have heretofore offered the fact that the carrying trade of our country is in foreign hands. If we here, on the distant northwest coast of the United States, are surprised that nearly all the vessels which visit us and engage in our trade are foreign, certainly there will be good reason for deeper astonishment at the fact that on our Atlantic coast, where there is capital in abundance for all paying enterprises, the same thing prevails.

That our people on this coast have not embarked more largely in the ocean carrying trade has been supposed by many to be due partly to the fact that capital was wanting, and partly to the disinclination of our business men to take risks in an enterprise with which they are not specially acquainted. But New York, Philadelphia and Baltimore certainly have capital and as certainly are not wanting in any line of available enterprise. Yet the ocean shipping to and from those ports is nearly all foreign. What is the reason?

It is not far to seek. We have pursued a narrow and restrictive policy of "protection" which has annihilated the ship-building industry in our country; we maintain a system under which we cannot build ships cheaply, and therefore cannot build ships which can compete with those of foreign nations even in our own carrying trade, and our laws prevent our citizens from buying foreign vessels, by shutting out from American registry all vessels except those built in our own country. So nearly all the freight money derived from our carrying trade is earned abroad. In a little while longer at this rate navigation will be to the people of the United States one of the lost arts. Ship building is already practically so. And yet we are required to praise the system which produces such results, and are told that it gives us a vast advantage over the ignorant foreigner.

THE CAUSE OF PANICS.

Many eastern journals are still discussing the causes of our late financial panic, and of the long period of business depression that followed it. Party interest forces not a few of them to ignore in the discussion the plainest principles of common sense. To charge a thing of this kind to this political party or that is the shallowest of all subterfuges. A panic has both its material and moral causes. People go on buying and selling and trusting one another more and more extensively, till at last some one begins to wonder whether some big business house isn't extending itself "just a little too much." When the panic of 1873 began, the first failure was the house of Jay Cooke. A doubt of the solvency of the house had suggested itself to some creditor, and he resolved to test the matter by asking for all that Jay Cooke owed him. He found out that he couldn't get his money, and then other creditors came. The news got out and everybody became suspicious. If the great house of Jay Cooke couldn't pay, what house could? And thus the panic came in a day. It was found that a large superstructure of business had been erected on a frail basis of credit. All men suddenly saw the fact. The conditions of business had not changed materially from those of a week earlier, but men's minds had changed. All confidence was gone. The credit system had extended too far, and the fictitious values on which it rested were suddenly discovered. The descent was by a long road, and the recovery has been by a similarly long one. For a great while people didn't know whom to trust. But at last things began to get down to a stable basis. People began to understand who and what they could trust. Credit again was established, confidence gradually returned, and resumption, putting an end to money fluctuations, tended wonderfully to increase men's trust in each other. As a result they are now all talking about a revival of business. It is only in countries with a complicated credit machinery that panics occur. In our country the panic was more general and of longer duration, because the so called money which the larger part of the people were using was itself a credit, and had to be worked up to a recognized and stable value.

MORMON MUMMERIES.

Recently the Salt Lake *Tribune* published an exposure of the secrets of the notorious Endowment House, giving the most disgusting picture of polygamy yet presented. The ceremonies, or mummeries, rather, are justly characterized as the most senseless and indecent that can be conceived. God and his angels are personated in the performance, as well as the devil and his imps. The room is painted to represent heaven, and those about to be initiated must enter with feet covered only with stockings, and with bowed heads and abject demeanor. The apostles, of course, need not to be so particular. They can enter without ceremony. Grips, signs and passwords are given, some of them most nonsensical, and all of them indecent. The woman's dress, if dress it can be called that covers nothing, is something similar in shape to the nightgown worn by our grandmothers, except that it is without any fastenings; and the man's dress is about equally absurd and indecent. The man is told that he must enter heaven through his own good deeds and the faithful performance of his duties to the church, and that the more wives he has the more fit his celestial blessedness he will become. The woman is informed that her husband is her God, and that it is to him alone that she must look for admission into the heavenly regions. Diagrams of the building are furnished by the *Tribune*, which serve to illustrate the infamous doings within its walls. It is amazing that government has refrained so long from striking at this beastly superstition. Fortunately at last preparations are making to push it to the wall. The Mormons, we are told, are filled with terror at the prospect of the action to be taken at the coming term of court. Only Gentiles are drawn for the grand and trial juries, and it is believed many old sinners will be booked for the penitentiary.

The fate of Major Thornburgh is another illustration of the mischief which follows the hampering of the army by the so called peace policy in relation to the Indians. He was obliged to refrain from firing on the Indians till he was attacked, and this gave them an advantage which they used with fatal results to him and his command. The Indians had completely surrounded the troops and the latter were held under strict orders not to fire. Gen. Sherman, in some remarks [illegible] on Friday last, spoke of the [illegible] troops in Colorado as being largely the consequence of the refusal of congress to keep the army up to necessary strength. He said: "They have cut our army down now until we can hardly do picket duty on our frontier lines, and that's the way the Indians get the drop on us. They always get the best of us first, as in the case of Custer. And now, fellow soldiers, I would ask of you that you solicit your congressmen to give us a force large enough to at least do picket duty." Led by partisan demagogues of the lowest order, congress cuts the army down, under pretense that there is danger of "military despotism."

The growth of Kansas has been marvelous, even beyond the greatest marvels of rapid growth among American states. Gov. St. John in his speech of welcome the other day to President Hayes at Neosho Falls, said that since the end of the war the population of the state has increased from 135,807 to [illegible]; the assessed valuation of property from $36,135,000 to $144,930,270; the miles of railroad from 150 to more than 2,000; the number of school houses from 685 to nearly 5,000; the number of newspapers from 37 to 275; number of acres under cultivation from 273,000 to 7,769,000; the annual production of wheat from 191,519 to more than 32,000,000 bushels, and the annual production of corn from 6,500,000 to more than 100,000,000 bushels. This is an unexampled record. Within ten years more Kansas will contain larger population and more wealth than any one of the former slave states, with the possible exception of Missouri.

Dispatches from Victoria indicate a hopeful prospect that construction of the Dominion Pacific railroad towards the east will soon actually begin. Victoria papers say that the delay has been caused solely by the fact that the route, until quite recently, had not been selected. A decision on this point required a long and critical examination. Our cousins must have much money to spare when they propose to put millions into a road over a mountainous country which for hundreds of miles can furnish little traffic.

The aristocracy of Massachusetts will not vote for Butler. Hence they have nominated John Quincy Adams. This action will weaken Butler by several thousand votes.

JOURNEYMEN TAILORS WHO COME TO Portland are requested to call at the Tailors' Union, Back shop, No. 93½ Front st. This is done to guard strange tailors from working for W. J. Quinn, as he refuses to sign the bill of prices which the leading merchant tailors of Portland have signed. The majority of Quinn's "jours" are women, as white "jours" refuse to work for him, except one man, who is not regarded by the Union as a mechanic. o8dlt TAILORS' UNION.

A PROMISING "BOOM" FROM THE EAST.

NEW YORK, Sept. 27, 1879.

——— ———: Have about finished up here and expect to be with you a week or so after you receive this. Feist & Franks' failure has had a bad effect on the booming market, and has made CASH twice as big as it was. I have used all you sent me and want more. I cleared a Philadelphia manufacturer out of two lines of Spreads yesterday, and have forwarded you a good White Jaquard Quilt to sell for 50c., and a Large Colored Spread, heavy and fringed, to sell for $1—worth $1.55 by the case and sold every day for that money. You will receive some excellent Rubber Ulsters for ladies, such as we sold last season for $[illegible] 50, which you can sell for $3, and a lot with large double capes equally cheap. I cleared the French Kid Gloves this morning. Portland has never seen such goods at the price; the "Jouvin Coupe," is a Glove which you can warrant in every particular.

The BLACK SILKS I wrote you of are in the Custom-house, but I expect to get them through and on the road Monday. The 75c. PRIMMING [illegible] will take the town by storm. I came to terms with the Fairmount Mill (V. Bros. & Co.) and they have shipped the Check Dress Goods, to sell at 15 yards for $1. They are actually worth 20 cts. per yard and the patterns are quite new.

[illegible] remit £448, in sight exchange to the Braybrook Spinning Co., Belfast. It is the last payment on the Linen Purchase. I shall mail you a batch of invoices this evening.

Very truly, &c., D. S. COHEN.

P. S.—I picked up a lot of RUBBER UMBRELLAS at auction Thursday. They are retailing here at $3 50; elegant and durable goods. We will be able to sell them for $1 50. I offered that for a duplicate, but couldn't get them.

In connection with the above we will state that some of the goods have arrived. They are too various to be enumerated, but even a casual inspection will convince any one that the place to trade in is the

THE SWAN-TULLOCH AFFAIR.

PORTLAND Oct 7 1879

TO THE EDITOR OF THE OREGONIAN

I observed in your issue of yesterday an article under the heading of "Brutality on the High Seas" also a similar paragraph in the Standard of last Sunday. From all appearances it seems the facts therein named have been gleaned by some over zealous reporter hungering and thirsting after an item from the mate of the vessel Anne Main who makes sundry charges of cruelty against Captain Swan.

If the veracity of this mate, Tulloch, is as much to be relied on as the generality of his class, then I think both sides of the question ought to have been heard before a statement went forth to the public of the most damaging kind to any respectable ship master who has a character and position to maintain.

I understand this case was put on the arrival of the vessel at this port into the hands of the proper authorities by whom a thorough investigation will be made and when evidence has been heard and a decision given by the court it will then be time to place the news before the public. But this system of putting one-sided statements of such a serious nature into print without sufficient evidence is in my opinion highly reprehensible. I am yours truly,

WM SCHEFFLER'S ST HELENA

SANITARY, VACUUM DISTILLED GRAPE BRANDY AND GOOD OLD FLUE HILL WINES

Mr Scheffler is sole proprietor of the principle known as the vacuum process of distilling by which the fusil oils are left with the residue and not incorporated with the brandy, leaving it pure and free from all deleterious substances which do and must exist in all alcoholic liquors distilled by the usual process of boiling heat. California Physicians have pronounced their preference of it to all other. Doctor Cox, government revenue officer at Cincinnati Ohio, says in his report that after ten years of close investigation he can safely say that very few if any pure wines or brandy are exported from the Old Continent to this. He has found none in his many analyses—that all are doctored before leaving France. The French Consul at Buenos Ayres writes home to his government that so much complaint is made there of the appearance of litharge and other dangerous drugs in all their French wines. That there is great danger of losing the trade of the Argentine States. Other proofs could be cited were it necessary to prove the superiority of the [illegible] class of California wines and brandy. Orders from responsible parties addressed to Wm Scheffler or Geo [illegible] Beach, St Helena, Napa county, Cal. will receive prompt attention.

How the Attack on Thornburgh's Command was Made. List of Killed at White River Agency

Dispatch from Rawlins Wy m [illegible]

The following particulars were [illegible] from a courier who b[illegible] Capt Payne after the fight. Major Thornburgh's expedition against the [illegible] Indians when within seventy [illegible] the agency halted for the [illegible] inst and the major sent Graf [illegible] of his scouts to the agency [illegible] with Agent Meeker and to see how [illegible] stood. The scout found the [illegible] ment and confusion prevailing. The [illegible] had sent all their old men w[illegible] dren south toward the Blue river [illegible] riors were decorated and painted [illegible] usual war style. They were about [illegible] Mr Meeker but Mr Lowry prevailed [illegible] not to commit the deed. Mr Meeker [illegible] Lowry that he attempted to leave the [illegible] with his family but was prevented by the Indians that they (the Indians) sign[illegible] their readiness for war and seemed anx[illegible] for the approach of the troops. They t[illegible] made another move to kill Meeker and [illegible] the buildings but were a second time p[illegible] vailed upon to desist. Lowry now att[illegible] to return to the command but was [illegible] that he must remain but after giving them a number of assurances of his peaceable [illegible] sion he was allowed to depart but was accompanied by about thirty warriors who rode with him a number of miles and then left him. Lowry arrived at the command then near Milk Creek on the evening of the 28th and gave Major Thornburgh the above information.

The next morning, September 29th the command advanced under the guidance of Joe Rankin who is well acquainted with the country. About 9 o'clock A M Rankin discovered fresh Indian signs and having arrived at a canyon through which the road passed, and which would afford an excellent opportunity for ambush he led the command around over the hill over an old trail well known to him. By this movement he saved the lives of the command for on arriving at the top of the hill he discovered the Indians in ambush on either side of the canyon through which the road passed.

Thornburgh formed his men in line and awaited the coming attack. He was repeatedly urged to fire on the Indians but persistently refused to do so saying that his orders would not justify an attack. Two Indians now rode up to within a hundred yards dismounted and with a savage yell fired shooting Capt Payne through the arm. At this signal the Indians gave a war whoop and the battle commenced. Thornburgh now found that he was surrounded. He ordered a charge which he gallantly led in person and succeeded in cutting his way out and when within about five hundred yards of his wagons, he fell dead with two bullets through his brain.

Capt. Payne next took command and the battle was carried on until 8 o'clock in the evening, the troops using the wagons and animals as breastworks. The Indians fell back a short distance and went into camp. Major Thornburgh's body as first mentioned had not been recovered, but lies in front of his command and as I it cannot be procured.

Following is a list of those at White River agency, all doubtless murdered: Agent N C Meeker, wife and daughter Josephine, Ayrawendy, one Frank, Harry Dresser, E J Mansfield, W. H. Post, Mr and Mrs Price and two children, Fred Shepherd, George Eaton and a boy named Thompson.

Cause of the Ute Outbreak.

DENVER, Oct. 2.—The cause of the Ute outbreak, as stated from Washington, are a mistake. There have been no encroachments on the reservation. Prospectors never went to Washington to urge congress to disregard the treaty. The northern Utes who attacked Thornburgh were not interested in the demand of the Los Pinos Utes. The cause of the outbreak was probably the failure of the government to pay the $79 000 due under the Brunot treaty of 1873, by which the San Juan mining region was ceded by the Utes to Colorado. Congress and the Colorado people have never asked the transfer of the Utes to the Indian territory.

Grant and a Third Term

CHICAGO, Oct. 8.—The *Tribune* has been publishing a large number of interviews recently with prominent citizens, democrats and republicans, and sums up the result by saying that the almost universal feeling is that Grant will be nominated, and among most republicans that he ought to be nominated. The *Tribune* is strongly favorable to Grant for a third term.
